Housing and Community Care

14 August 2013

Mental Health and Wellbeing Strategy – Review of Progress

Report by Executive Director (Housing and Community Care)

PURPOSE OF REPORT

The Mental Health and Wellbeing Strategy 2012-2015 was presented to the Committee last year. This report updates Committee on work to cost and implement the Strategy.

1. BACKGROUND

- 1.1 The Mental Health and Wellbeing Strategy 2012-2015 (report 12/475) was submitted to Housing and Health committee on 31 October 2012 by the Executive Director (Housing and Community Care). While the Strategy was agreed, the Executive Director was instructed to return to Committee with a detailed Action Plan, including resource implications. This paper describes key actions completed or underway in the Strategy and provides a detailed action plan which notes timescales and performance indicators and is clearly budgeted.
- 1.2 The aim of the Strategy is to transform services for people with mental health problems, moving away from traditional models which can stigmatise to approaches which are focused on Recovery from mental ill-health and which are inclusive, flexible and efficient. The Strategy is a landmark shift in direction for Perth and Kinross moving beyond simply seeking to improve services designed to treat ill health towards a whole person and whole community approach which seeks to improve the wellbeing of all. Our Strategy is consistent in this aim with the National Mental Health Strategy for Scotland published in August 2012.
- 1.3 Securing the views of people with mental health problems, their carers and other stakeholders was an integral part of constructing the Mental Health and Wellbeing Strategy. A series of consultation events were attended by over 300 representatives from both statutory and voluntary agencies as well as service users and carers. The continuing involvement of service users in shaping their health and social care experience and the contribution which they can make to decision making will be key elements in shaping the nature of our future services.
- 1.4 Our continuing commitment to listen to people with mental health needs and their carers in the wake of the extensive consultation undertaken in 2012 for the Mental Health and Wellbeing strategy has seen us implement the following:

- A Citizen Leadership programme which will empower adults with mental health problems to direct their own care and support while assisting us in developing plans for future mental health services.
- The involvement of service users and carers in the competitive tendering interviews for the new Shared Lives service, to ensure their involvement in decisions regarding the services which may eventually support them.
- The development a new social networking site for people with mental health problems in Perth and Kinross, 'Place It', with the full involvement of local people who experience a mental health problem.
- The establishment of local structures to support the development of mental health services long term which include service users and carers.

A detailed action plan for the Strategy has been completed (appendix) which contains clear dates, performance measures and costings.

The Strategy is based upon 12 pledges whose content reflects the three themes of Community and Place; Mainstream Service Development and Specialist Responses. The Action Plan sets out a wide range of targets to be accomplished over the next 3 years. Within 9 months of the strategy coming into existence, however, a number of initiatives are now under way which will significantly expand the range of services available to local people and radically alter our overall approach to the promotion and maintenance of mental health. A selection of these initiatives is set out below:

2. PROPOSALS

2.1 Community and Place

We are developing Community Circles to support the mental wellbeing of communities and enable informal support networks. Community Circles were started in Iowa, USA, as a community self help programme and the model has spread across the USA and into the UK. Enable Scotland, a large national charity, have been commissioned to lead on this work in Perth and Kinross. They have already established a community circle with people from Letham area and are developing one in Highland Perthshire, based in Pitlochry.

We are planning a Mental Wellbeing Day for Perth and Kinross in October this year to raise awareness of mental wellbeing which will seek to challenge the stigma of mental ill-health and to highlight the steps which can be taken to support sound health in the workplace. It will also highlight and celebrate the recovery journey from mental-ill health of people living in Perth and Kinross.

A mental health and wellbeing awareness campaign was held during Mental Health Week 13 - 19 May 2013, with information displays in all libraries, Live Active centres and other council settings across Perth and Kinross. This followed the awareness week across Tayside during 28 January - 1 February 2013 which included a number of events in Perth, Crieff, Aberfeldy and Blairgowrie. Perth Association for Mental Health held a 'Who does what in mental health' day on 30 April 2013.

A social networking site has been set up by the local mental health charity ‘Plus’ as a citizen led Perth and Kinross mental health and wellbeing information hub. The network will be a valuable repository of mental wellbeing information created, sustained and used as a resource for mental health and wellbeing information by all the members. People can get engaged, stay involved, access information and contribute at times suitable to them. The network will also offer the facility for network members to discuss or collaboratively work on documents without the need for face to face meetings.

A Sports Academy has been developed with St Johnstone Football Club to support people with mental health problems and those with learning disabilities access sport and fitness activities. The Sports Academy has proved very successful in supporting recovery for people with a mental health problem and a Mental Health football tournament supported by the Scottish Football Association was held earlier this year in Perth. The Scottish Football Association described the project as ‘trailblazing’.

2.2 Service Development and Provision

To further encourage the choice and control available to service users through Self Directed Support (SDS), we have allocated £30,000 to ‘Perth and Kinross SDS Support Service’ run by Cornerstone. These additional resources will go towards supporting people with mental health problems to use Direct Payments or individual budgets managed by Cornerstone to purchase the support which they require to aid recovery.

We have commissioned a new Shared Lives service (also known as ‘Adult Placement’) for Perth and Kinross. Shared Lives services offer cost effective tenancy support and respite or day service support for adults in need, provided by families living within or close to people’s communities. After a tendering process involving service users and carers, Richmond Fellowship Scotland was selected as the managing agency. This service will offer personalised choice to those with mental health problems who cannot live without support, who struggle with living alone and are unconnected to their communities.

In the wake of the review of our mental health teams, we have developed three Senior Practitioner posts for the South, Perth City and North Localities to provide a community lead for Mental Health Officers and mental health social workers in each locality.

NHS Tayside are also funding three ‘Peer Supporters’ to be employed within our integrated Community Mental Health Teams. There is good evidence to support the proposition that people recovering from mental ill health can be helped in this process by those who have experienced mental illness health themselves.

We are developing a clear pathway for people seeking mental health day service support in Perth and Kinross. This is being developed into a Service Specification which will inform a redesign of our commissioned community mental health support services with our partners in the independent sector. This will, in turn, provide a much clearer access point and support options for people requiring it.

We have trained additional staff, (Health and Social Care) in Dialectical Behavioural Therapy (DBT) which is the key therapeutic support for people with Borderline Personality Disorder. This means that we can now offer DBT across Perth and Kinross and not just within Perth city, as previously. This is expected to be of significant benefit to those who have what can be an extremely debilitating condition.

We have trained 2 staff to deliver Scotland's Mental Health First Aid (Young People) and plan to train more staff. The two instructors will initially co-deliver the courses in Perth and in Dundee, with support from NHS Tayside (Public Health). Mental Health First Aid is intended to assist a range of professionals and voluntary sector practitioners in recognising the presence of certain mental health conditions and providing advice on how to respond.

We have also developed integrated meetings between our Community Mental Health Teams and Children and Family services to ensure that children and young people with parental mental health difficulties are supported and protected.

In order to increase flexible respite options for people with mental health problems, we have altered the contract of the Short Breaks Bureau so that it now will provide personalised individual respite options for people with mental health problems.

2.3 Specialist Response

We have brought together voluntary sector and public sector practitioners in regular meetings to facilitate the provision of integrated support to a range of people with complex needs. These Complex Case Integration Groups (CCIGs) are now in place in Perth Central, Letham, Pitlochry and Blairgowrie and support a range of people with mental health, drug/alcohol, housing, relationship and behavioural issues. Their membership extends to Police Scotland, Housing Services, Community Justice and Drug and Alcohol Services, Children's Services, Community Capacity Builders, Tayside Health Practitioners and a range of voluntary organisations. These Groups have yielded examples of high quality joint working between Council teams and Health Psychiatric Services which have served to further support and protect vulnerable individuals.

We are also developing plans for an out of hours Crisis Support Service for people who are at risk of self harm/suicide, have some degree of mental health problems, but are not detainable under the prevailing legislation. Our intention is to build upon existing crisis response services and identify critical gaps so that services provided to people through this medium form part of a wider, integrated network of local supports and services.

In order to better identify, understand and support those at risk of suicide, Perth and Kinross Council staff are linking with NHS Tayside and Dundee and Angus local authorities to form a Suicide Review Group. Led by a consultant for public health, this new group will endeavour to ensure that we learn from suicides and apply this knowledge in a way which reduces the future likelihood of similar occurrences in order to improve our future responses and save lives.

2.4 Additional Information on Resource Implications

In October last year Committee requested that additional costing information be brought back to Committee in 6 months time with regard to actions within the Mental Health and Wellbeing Strategy identified as requiring additional resources. These were:

- The development of an Out of Hours Crisis Response Service.
- The development of Social Prescribing and signposting.
- The training of Instructors/Trainers to expand the awareness of staff and the Mental Health training options within our various services.

The development of an Out of Hours Crisis Response Service

The concept of this proposed service has significantly changed as further research and fact finding has been completed. The original idea of a stand alone service commissioned to provide a Crisis or Safe House proved to be prohibitively expensive. We have now moved to a model that uses the significant resources we currently employ in the Council and with our health partners to support people in crisis. The new model will redesign what we currently provide with an additional staffing component and is anticipated to cost in the region of £70,000 per annum. £25,000 has been identified from within the 'Choose Life' funding. The remaining £45,000 has been identified as a pressure for consideration at the next budget process.

The development of Social Prescribing and signposting

A partnership agreement has been reached within the Health and Social Care Partnership which will see the secondment of a member of Health Care staff to support the development of Social Prescribing across Perth and Kinross while £10,000 non-recurring funding has been secured from Perth and Kinross Council to support administration costs, and the facilitation of training and development events in relation to this joint enterprise. In the meantime, a Social Prescribing pilot is under development with the Ardblair Practice in Blairgowrie while discussions are also under way with 2 other GP practices.

The training of Instructors/Trainers to expand the awareness of staff and the Mental Health training options within our various services

As noted earlier, two Perth and Kinross Council staff have already been trained as Mental Health First Aid trainers, while a further three have now

been identified. £15,000 has been secured to support training and development of staff during the current financial year and this will see further staff trained as trainers in relation to Mental Health First Aid, Mindfulness and other mental health-related competencies.

3. CONCLUSION AND RECOMMENDATION(S)

The Mental Health and Wellbeing Strategy is ambitious in its scope to support not just those with severe and enduring mental health problems, but also those affected by poor mental wellbeing in Perth and Kinross. Our aim is to transform services for people with mental health problems by improving our responses to the challenges of mental ill-health at every stage – from prevention of serious illness to co-ordinated support towards recovery. The actions detailed above, undertaken within six months of the Strategy launch, demonstrate our commitment to achieving this ambition. A detailed action plan noting timescales and performance indicators is attached as an appendix to this report.

It is recommended that the Committee:

- i. Agree the detailed action plan
- ii. Note the progress to date
- iii. Note the budgetary proposals included in the above

1. IMPLICATIONS, ASSESSMENTS, CONSULTATION AND COMMUNICATION

The underlined table should be completed for all reports. Where the answer is 'yes', the relevant section(s) should also be completed

Strategic Implications	Yes / None
Community Plan / Single Outcome Agreement	Yes
Corporate Plan	Yes
Resource Implications	
Financial	Yes
Workforce	Yes
Asset Management (land, property, IST)	Yes
Assessments	
Equality Impact Assessment	Yes
Strategic Environmental Assessment	No
Sustainability (community, economic, environmental)	Yes
Legal and Governance	Yes
Risk	No
Consultation	
Internal	Yes
External	Yes
Communication	
Communications Plan	

1. Strategic Implications

Community Plan / Single Outcome Agreement

- 1.1 The Strategy supports the following outcomes from the Community Plan/ Single Outcome Agreement and Corporate Plans respectively:
- Supporting people to lead independent, health and active lives.
 - Developing educated, responsible and informed citizens.

Corporate Plan

- 1.2 The strategy supports the Council's Corporate Plan for the same reasons as those outlined in relation to the Community Plan.

2. Resource Implications

Financial

- 2.1 This report carries the following Resource Implications:

- Financial – where funding is required, this is now in place with the exception of partial funding to support the development of a Crisis Response Service. Certain action plan targets are being achieved through redirection of existing funds. Other targets are being met by extending access to projects funded under different strategies to service users with Mental Health needs. The training of trainers to

support future delivery of specific Mental Health courses is facilitated through non-recurring funding from Perth and Kinross Council, while some £25,000 of the estimated £70,000 required to fund a Crisis Support Service has been identified from within 'Choose Life' funding – leaving a balance of some £45,000. As noted earlier, this balance of £45,000 has been identified as a funding pressure for the next budget process (Table 1 beneath sets out the total funding to support the Mental Health Strategy Action Plan, the origins of that funding and the duration).

- Workforce – this report describes a programme of developing competencies across a wide range of staff through the provision of targeted training in relation to Mental Health. Staff will require to be released for the period of these training sessions, although most will last no longer than 1 or 2 days
- Asset Management – the closer integration of Health and Social Care Community Mental Health Teams, as described in this paper, will be supported by the development of a joint base within Jessie Street, Blairgowrie. Funding to support the development of this exercise is already included within the Capital Programme and work is due to commence later this year.

Table 1

Action Plan Development	Funding Source	Duration of Funding	Comments
Development of 'Community Circles' to support Mental Wellbeing of communities and enable informal support networks	£30,000	Time limited	
Develop Sport Academy at St Johnstone	£40,000	Time limited	
Promote Scotland's Mental Health First Aid	£19,600	£15,000 non-recurring funding from Perth and Kinross Council £4,600 non-recurring funding from NHS Tayside	
Develop accessible community-based signposting service to support Social Prescription	£10,000	This funding is to support web development; laptops; communication; travel/volunteer expenses; venues	
Self Directed Support to increase number of Direct Payments to individuals with Mental Health needs	£25,000	Allocated from Scottish Government funding to Perth and Kinross Council for introduction of SDS. Recurring funding for 2 years.	
Introduction of 'Shared Lives' service	£60,000	From Perth and Kinross Council to support Learning Disabilities strategy. Time limited	Project to be extended to include people with Mental Health needs
Support the introduction of an Out of Hours Crisis Response Service linked into other Out of Hours Services	£70,000	£25,000 of funding secured from Choose Life - recurring	

Asset Management (land, property, IT)

- 2.3 Not applicable.

3. Assessments

Equality Impact Assessment

- 3.1 Under the Equality Act 2010, the Council is required to eliminate discrimination, advance equality of opportunity, and foster good relations between equality groups. Carrying out Equality Impact Assessments for plans and policies allows the Council to demonstrate that it is meeting these duties.

The proposals in this paper have been considered under the Corporate Equalities Impact Assessment procedure with the following outcome.

Equality Impact Assessment

This strategy will promote the greater inclusion of people at risk of exclusion through their involvement in identification, planning and delivery of key services which they require. It will also support their inclusion for their involvement in interviews and panel exercises to determine the appointment of new 'service providers'.

- 3.2 Under the provisions of the Local Government in Scotland Act 2003 the Council has to discharge its duties in a way which contributes to the achievement of sustainable development. In terms of the Climate Change Act, the Council has a general duty to demonstrate its commitment to sustainability and the community, environmental and economic impacts of its actions.

The relevant element within the action plan attached to this report is that of sustainability. Through the extension of staff competencies and the development of Social Prescribing, we will contribute towards the longer term sustainability and increased effectiveness of Mental Health Services in Perth and Kinross.

Legal and Governance

- 3.3 There are no direct legal implications arising from this report.

4. Consultation

Internal

- 4.1 The Head of Legal Services and the Head of Human Resources have been consulted in the preparation of this report in relation to workforce development and resources. The action plan attached to this report identifies costed

proposals, the majority of which have already been funded. Only that element relating the development of a Crisis Response Service is not fully funded at this time. Endeavours to identify the balance of the funding continue at this time.

External

- 4.2 The General Manager, Community Health Partnership, the Divisional Commander of Police Scotland and the Chief Executive of Perth and Kinross Association of Voluntary Service have been consulted in the preparation of this report.

5. Communication

- 5.1 As noted in the Action Plan, action is already underway to promote improved access to information online.

2. BACKGROUND PAPERS

SERVICE DEVELOPMENT AND PROVISION				
5. We will seek to personalise the support offered to you				
5.1 Ensure service user involvement, and where appropriate, carer and/ or partners of service users involvement and participation at meetings where they are the subject of discussion/decision making in relation to their treatment and care.	August 2013 onwards	<ul style="list-style-type: none"> • Case studies, testimonials, wider user involvement not just one person • Numbers discharged from CMHTs • Numbers with WRAPS 	Within existing resources	<ul style="list-style-type: none"> • Team Leaders/Senior Practitioners • CMHTs
<ul style="list-style-type: none"> • Encourage wider use of WRAP/Staying Well Plans/Advance Statements • Better sharing between people using the services and organisations – service user owns the plan. Wider use of plans and statements • Change in attitude of professionals who "know best". Reduce status issue for everyone – take fear out of meeting for user • Training for NHS/LA staff 		<ul style="list-style-type: none"> • Feedback from service users and carers 		
5.2 Ensure user and carer involvement in decision making at a local and strategic level.	2013 - 14	<ul style="list-style-type: none"> • Representation on groups 	Within existing resources	<ul style="list-style-type: none"> • PH & GG
5.3 Self-directed support progressed to increase number of direct payments to individuals with mental health needs	December 2012 onwards	<ul style="list-style-type: none"> • Number of individuals who access SDS 	Within existing resources	<ul style="list-style-type: none"> • PH <p>£25K one off in additional monies 2012/2013 from PKC to support roll-out.</p>
<ul style="list-style-type: none"> • Information sessions for service users/carers • Admin systems in place to support implementation • Monitoring reviews and audit processes in place 				

Actions	Timescales	How we know it's working	Resources and costs	Lead Agencies
<ul style="list-style-type: none"> Education sessions to NHS and voluntary sector to increase understanding and implications. 				
<p>5.4 Develop solutions for rural areas, such as locality based services; transport links for those who have to access central services; and named staff person for a particular area.</p> <ul style="list-style-type: none"> Named person for each GP Practice Telehealth solutions On-line information/services Appointment booking/transport availability 	2014	<ul style="list-style-type: none"> No. of individuals accessing care and treatment via telehealth from CMHTs Feedback from GPs/service users/patients 	Within existing resources	<ul style="list-style-type: none"> NHS (lead worker to be identified)
<p>5.5 Promote vocational rehabilitation to enable individuals to access, maintain or return to employment or other useful occupation</p> <ul style="list-style-type: none"> Establish robust reviewing and distance travelled system Establish and implement P&K pipeline pathways Community rehab within CMHTs 	Mar 13	<ul style="list-style-type: none"> Number of referrals Feedback from service users Numbers of service users moving along the pipeline 	Within existing resources	<ul style="list-style-type: none"> Employability network/PKC/NHS
<p>5.6 Review current plans for supported accommodation and plan for future requirements.</p> <ul style="list-style-type: none"> Tender of 'Shared Life' service (paid family support in community). 	Oct 13	<ul style="list-style-type: none"> Numbers of service users accessing service 	Within existing resources One off payment of £60K for 2012/2013 from PKC	<ul style="list-style-type: none"> PKC (Paul Henderson)
<p>5.7 Develop additional access community based sport activities through additional resources to Sports Academy</p>	Dec 13	<ul style="list-style-type: none"> Service user feedback Number of supporting activities 	£40K one off 2012/13 from PKC	<ul style="list-style-type: none"> St. Johnstone FC Sports Academy

Actions	Timescales	How we know it's working	Resources and costs	Lead Agencies
6. We will work together across Perth and Kinross to make mental health services effective and appropriate for you				
6.1 Develop Opportunities to build relationships between agencies and develop integrated structures. <ul style="list-style-type: none"> • Adult Mental Health teams to fully engage with Northwest Perthshire Integrated model • Engage with further roll-out of integrated locality model to other areas/communities as they come on-stream 	2013 Annual	<ul style="list-style-type: none"> • Assessment times completed • Number of reviews completed • Number of new referrals • Feedback from service users • Range of new options developed 	Within existing resources	<ul style="list-style-type: none"> • CMHT, Team Leaders and Senior Practitioners
6.2 Develop a web based directory of 'Who's who?' across the CHP to include: <ul style="list-style-type: none"> • Roles and responsibilities • Committees, membership and structures 	June 2013	<ul style="list-style-type: none"> • Number of times web page accessed 	Within existing resources	<ul style="list-style-type: none"> • PKC/CHP (Lisa Potter)
7. We will make it simpler and easier to get help				
7.1 Map options available and customer experience at service access, for different levels of need/issues. To be illustrated as a detailed visual pathway. (Deliver through 6.2; 2.3; 4.5)	June 2013	<ul style="list-style-type: none"> • Number of hits • Number of enquiries • Increase in referrals/uptake of services • Pathway in place 	Within existing resources	<ul style="list-style-type: none"> • PKC/NHS (To be determined)
7.2 Co-locate community mental health services in rural localities <ul style="list-style-type: none"> • Review office accommodation options (North CMHT) • Develop option appraisal with costs/timelines • Develop consultation and engagement plan 	Dec 2013	<ul style="list-style-type: none"> • Service user consultation • Performance statistics • Evidence of change in service provision arrangements 	Within existing resources	<ul style="list-style-type: none"> • Paul Henderson • Grace Gilling

Actions	Timescales	How we know it's working	Resources and costs	Lead Agencies
<p>7.3 Review services within localities and how these can be accessed more widely.</p> <ul style="list-style-type: none"> • Review resources to ensure these are used effectively and targeted to those in most need • Create more opportunities by sharing good practice between localities 	August Ongoing	<ul style="list-style-type: none"> • Feedback • Staff feedback • Monitoring outcomes • Staff and service equality monitoring • Data 	Within existing resources Review level 1 grants	• PH/GG
7.4 Community Mental Health Teams	June 13	<ul style="list-style-type: none"> • No. of rejected referrals • Analysis of reasons for rejected referrals • No. of readmissions • Waiting times 	Within existing resources	• NHS/PKC
7.5 Formalise peer support model and increase numbers of peer supporters across P&K	June 13 onwards	<ul style="list-style-type: none"> • No. of peer supporters across each level and locality • Feedback 	Within existing resources	• PH/GG
7.6 Develop wellbeing room within General Adult Psychiatry at MRH as a link to the community led by service users.	Dec 12	<ul style="list-style-type: none"> • Service user feedback • Number of users 	Within existing resources	• NHS/PLUS

Actions	Timescales	How we know it's working	Resources and costs	Lead Agencies
<ul style="list-style-type: none"> • Group set up to progress • Develop vision and name • Identify resources required • Develop community links • Develop similar resource within community to support transition process 				
7.7 Improve GP awareness of services / community initiatives to direct GP referrals to appropriate	2013	<ul style="list-style-type: none"> • Service users experience • No. of referrals rejected/accepted • Levels of social prescribing • Involvement of locally based SW at GP practices/schools • Articles featured in Tayside Medical Committee Newsletter 	Within existing resources	<ul style="list-style-type: none"> • Deborah Gray • GPs • CMHTs
<ul style="list-style-type: none"> • Link to Signposting Social Prescribing project • Publish information in Tayside Medical Committee Newsletter • Link CHMT member to GP practice (as above) 				
7.8 Improve the treatment and support available to people with borderline personality disorder – particularly those living outwith Perth area	June 2013 onwards	<ul style="list-style-type: none"> • No. of individuals receiving care and treatment • New services introduced • Service user feedback 	Within existing resources Share resources with Community Safety	<ul style="list-style-type: none"> • PKC/NHS
7.9 Review support available to female offenders within the community. Develop mentoring programme. (Delivered under Community Justice Authority area plan – for Perth and Kinross)	June 2013	<ul style="list-style-type: none"> • Service user consultation 	Within existing resources Share resources with Community Safety	<ul style="list-style-type: none"> • PKC – Criminal Justice and Central Healthcare
8. We will share information and data between agencies where appropriate to make it easier for you to access services when you need them	August 2013 – Dec 2014	<ul style="list-style-type: none"> • Reduction in 	Within existing resources	<ul style="list-style-type: none"> • NHS/PKC/Vol Sector
8.1 Establish interagency information sharing protocols particularly around key stages: admission				

Actions	Timescales	How we know it's working	Resources and costs	Lead Agencies
<ul style="list-style-type: none"> to/dischARGE from hospital; when a person's health is deteriorating; and when a client is moving agencies. Review what currently exists, specifically in children's services and relevance to adult services Engage with GPs to explore how we share information with primary care Carers information sharing protocol 		<ul style="list-style-type: none"> complaints regarding confidentiality Reduction in complaints regarding communication Appropriate information is shared 		(To be determined)
8.2	Explore systems to enable the service user to hold their information, particularly in relation to their care, treatment and recovery.	August 2013 – Dec 2014	<ul style="list-style-type: none"> No. of service users who hold their own care record 	<ul style="list-style-type: none"> Information governance team
8.3	Increase awareness, understanding and use of the advocacy service both amongst service users and staff.	Dec 2012	<ul style="list-style-type: none"> No. of referrals to advocacy No. of services users/patients aware of the option 	<ul style="list-style-type: none"> Independent Advocacy Service providers
9. We will ensure that all children and young people in Perth and Kinross are given the opportunities to develop with an emphasis on wellbeing	March 2014	<ul style="list-style-type: none"> Services maintained or increased/uptake of these services Service user and carer feedback 	<ul style="list-style-type: none"> PKC HCC Ian Wilkie Colin Thomson 	
<ul style="list-style-type: none"> Effective liaison and communication between Adult and Children and Young People's Services Review transition process to Adult Services. Review communication and information sharing processes across partnership 				

Actions	Timescales	How we know it's working	Resources and costs	Lead Agencies
<ul style="list-style-type: none"> • Work in collaboration with all agencies and contribute to progressing the P&K CHP Improvement plan • Work with specialist CAMHS services • Staff training in child protection and other relevant agendas as required 				
<p>9.2</p> <ul style="list-style-type: none"> • Ensure teams and agencies are aware of Child Protection procedures, including the Perth and Kinross Council joint protocol 'Working with Children and Young People Affected by Parental mental Health Difficulties'. • Improved joint working in Child Protection and Mental Health fields 	June 2013	<ul style="list-style-type: none"> • Better awareness and use of guidelines and procedures • Improved outcomes for families • No. of Child Protection cases where Mental Health staff are involved is recorded 	<p>Within existing resources</p>	<ul style="list-style-type: none"> • PH/GG
<p>9.3</p> <ul style="list-style-type: none"> • Increase service support options for people who are parents and take into account child care needs, possibly providing an outreach service at locations with crèche facilities. • Consider within day service review recommendations • Review and improve respite provision for carers to ensure a flexible and personalised approach 	Oct 2013 - June 2014	<ul style="list-style-type: none"> • Reduction in DNAs • Feedback • No. of crèche facilities provided • Carer feedback & Involvement of carers support worker • No. of respite plan taken up 	<p>Within existing resources</p> <p>Look for requirement for small test of change</p> <p>Re allocated Short Break Bureau monies</p>	<ul style="list-style-type: none"> • PH/GG
