Ref Notice of 11/06/2018 – regards to Chapel Street Garage and request for vary 'condition 7' street trader

Ro whom it may concern

Please note my objection to the proposed plan

Chapel Street Garage is a privately owned premises/yard and compound that houses mainly motor vehicle, some occupied caravans and a vehicle repair centre/workshop

The proposal is regarding a mobile "Burger Van" on the site

The various surrounding houses mainly have bedrooms overlooking the site and those in 18-24 chapel street contain mainly elderly people, at present the area is generally quiet in the evenings and overnight, the worry is that this proposal will result in a lot of people frequenting the Burger van especially after the pubs close and that this would serious impact of the quality of life of the local residents

The Burger Van is it seems to be going to use gas, stored on site, to cook and there must be some worries regarding this

It may also result in the car park serving the area being full of transient traffic at a time that locals need to use it

There is already plenty of provision for fast food in the town and I cannot see that this new outlet is required

I hope that when you have time to consider this application you will take into account the objections of those residents who will be adversely affected

Yours faithfully,

Steve J Morton

Ref: letter /Notice of 30/11/2018 – regards Civic Government (Scotland) Act 1982,
Application for Street Traders Licence for The Courtyard, Churchill Court, Aberfeldy, PH15
2AS.

To whom it may concern.

Please note my objection to the proposed plan.

The Courtyard Churchill Court is a privately owned premises/yard and compound that houses
mainly motor vehicle, some occupied caravans and a vehicle repair centre/workshop.

The proposal seems to be regarding a mobile "Burger Van" on the site.

The various surrounding houses mainly have bedrooms overlooking the site and those in 18-
24 chapel street contain mainly elderly people, at present the area is generally quiet in the
evenings and overnight, the worry is that this proposal will result in a lot of people
frequenting the Burger van especially after the pubs close and that this would serious impact
of the quality of life of the local residents.

The Burger Van is it seems to be going to use gas, stored on site, to cook and there must be
some worries regarding this.

It may also result in the car park serving the area being full of transient traffic at a time that
locals need to use it.

There is already plenty of provision for fast food in the town and I cannot see that this new
outlet is required.

I hope that when you have time to consider this application you will take into account the
objections of those residents who will be adversely affected. I am happy for a redacted copy
to be being sent to applicant.

Yours faithfully,

Steve J Morton
