

PERTH AND KINROSS COUNCIL**Housing and Health Committee****27 January 2016****Social Care Commissioned Services – Contract Values 2015-16****Report by Director (Housing and Community Care)****ABSTRACT**

This report advises Committee of the funding awards for service level agreements with voluntary sector providers in 2015-16 and the contract values for contracted services purchased by Housing and Community Care for 2015 -16. It also outlines the importance of the draft Joint Strategic Plan which establishes a new framework for agreeing commissioning priorities in the future and highlights other issues which will have an impact on our commissioning arrangements, including the Living Wage Policy.

1. BACKGROUND

- 1.1 This is the annual update advising Committee of the levels of funding for social care commissioned services purchased by Housing and Community Care during 2015-16. It includes funding for external voluntary organisations delivering services under the terms of Service Level Agreements and funding for contracts with a range of voluntary and private providers who deliver services such as:
 - advice/information and support
 - independent advocacy
 - day activities and employment support
 - specialist community support services and housing support
 - care at home services and care homes
- 1.2 The Service Level Agreements and contracts referenced in this report contribute to the delivery of Housing and Community Care's strategic objectives, delivering positive outcomes for people with community care needs in Perth and Kinross so that they are supported to live independently at home or in a homely setting. Service Level Agreements and contracts for social care are subject to contract management and monitoring by the Commissioning and Contracting team to ensure good quality of service, value for money and strategic relevance.
- 1.3 These commissioned services link to commissioning decisions which are determined by the objectives and priorities set within Joint Care Group Strategies. This strategic context is fundamentally changed by the integration of health and social care and the publication of the first draft Joint Strategic Plan at the end of November 2015. This draft Plan lays out a radical approach to transforming the health and social care system, focused on delivering the

national outcomes through directly provided and externally commissioned services.

- 1.4 The proposed Action Plan contained in the draft Joint Strategic Plan indicates that key areas of commissioned services will be reviewed, including:-
- older people's residential care services
 - care at home services
 - community care day services
- 1.5 In addition, the Council is now focused on ensuring that all procurement activity and processes deliver efficient, effective and value for money services and this rigour will be applied to social care services.
- 1.6 In summary, the commissioning landscape will change over the next several years as strategic priorities are re-defined, with an emphasis on integrated working, coproduction with communities and partner agencies and a focus on localities. In this respect, the Strategic Planning process is likely drive to a significant redesign of services which, in turn, will change the shape of services commissioned.

2. CHANGES IN PROCUREMENT LEGISLATION AND GUIDANCE

- 2.1 A range of policy and financial factors will impact on the way we commission services in the future, extending to new procurement legislation and guidance affecting social care, the Government's Living Wage Policy and national supplier issues (e.g. care home sector).
- 2.2 The Procurement Reform (Scotland) Act 2014 brings the 2014 European Procurement Directives into the domain of Scots Law and will change the rules in relation to the procurement of social care services. Scottish Government Guidance is shortly to be issued which is likely to retain a "light touch" regime for the procurement of care, support and some other specific services. Specifically, these new rules mean that when the value of a contract is under 750,000 Euros (estimated to be £608,000 at current exchange rates), the Council can decide on a case by case basis whether or not to award a contract without carrying out a competitive procurement exercise.
- 2.3 This means that there is some additional flexibility afforded to Councils for social care services valued at under 750,000 euros, but full application of EU competitive procurement rules where services are valued over 750,000 Euros. The Council's Social Work Contract Rules which were previously approved in October 2012 describe the Council's approach to social care procurement and will have to be revised in light of new Guidance during 2016.

Living Wage Policy

- 2.4 Recent Scottish Government guidance, “Statutory Guidance on the selection of Tenderers and Award of Contracts – addressing Fair Work Practices, including the Living Wage, in Procurement” was issued in October 2015 under section 29 of the Procurement Reform (Scotland) Act 2014. It advises local authorities that a requirement for external providers to pay the living wage cannot be stipulated within a competitive procurement process. However, “fair work practices” (including pay and conditions) are relevant where the quality of service being delivered is directly affected by the quality of the workforce. In practice, this means that Councils ensure that fair working practices are included in the evaluation of bids. This would include issues such as remuneration, contracts of employment and training.
- 2.5 This guidance affirms that one of the key challenges facing the Council, through its commissioning and procurement methods and in its contractual relationships, is to bring influence to bear to improve fair work practices, this in turn will have a beneficial impact on recruitment and retention and, thereby, quality and availability of social care provision.
- 2.6 As part of the Scottish Government’s policy commitment to better pay and conditions in the social care sector, the National Care Home Contract introduced a £7 per hour minimum for care workers in care homes, with effect from the 1st April 2015. From 1st April 2016, all care providers will be required to pay all staff the Government’s Living Wage of £7.25. Preliminary assessment of the rates of pay across social care providers indicates that the majority of providers in Perth & Kinross are already paying at the level of the proposed Government Living Wage for care staff. However, the National Living Wage Foundation’s Living Wage rate, which is an independently verified rate, is set at £8.25 per hour and this is not universally paid across the social care sector. There is, furthermore, some variation in the pay and terms and conditions generally prevailing in the voluntary sector as compared with the private sector.
- 2.7 The Living Wage (National Living Wage Foundation) which, if adopted, will have significant resource implications for the care sector, the Council and the Integration Joint board. This is an area for further work and there will be a need for dialogue with providers in order to establish the feasibility and the timing of any move towards the National Living Wage Foundation hourly rate.

3. CARE HOME SECTOR – ROLE FOR SCOTLAND EXCEL

- 3.1 Committee will be aware that, over the last two years, there have been deliberations about the future of the National Care Home Contract and a proposed shift towards a local commissioning model for care home provision from April 2015. Negotiations during 2014-15 between Scottish Care, COSLA and the Scottish Government led to a different outcome, with agreement being reached on continuation of the National Care Home Contract.

- 3.2 The agenda for changing care home provision to create a more adaptable resource focused on local needs and requirements is now included in the draft Joint Strategic Plan and will be taken forward as part of the action plan. Nationally, the National Care Home Contract will continue to provide a framework within which providers will operate, and there will be national negotiation of prices and terms.
- 3.3 In recognition of this national dimension in the care home sector, Scotland EXCEL has just taken on an enhanced remit which will provide monitoring and financial intelligence in support of COSLA and individual local authorities and their strategic commissioning needs.

4. SELF DIRECTED SUPPORT LEGISLATION

- 4.1 In April 2014, the Self Directed Support (Scotland) Act came into operation with the primary objective of extending the opportunity for service users and carers to exercise greater choice and control over their care and support. As indicated in earlier reports, this has required changes in the contractual relationship between the Council and providers, within which providers are responsible for assisting people to direct their own support (when they wish to do so) but when they do not want to take on the responsibilities of a direct payment. This is another significant development which is likely, over time, to change the pattern and nature of services which are commissioned. This is wholly consistent with aspects of the draft Joint Strategic Plan which will lead to the redesign of services, with a focus on national health and social care outcomes, locality and coproduction.

5. PARTNERSHIP WITH EXTERNAL PROVIDERS/INTEGRATED CARE FUND

- 5.1 Strong partnership working arrangements with providers are well established across all sectors of social care provision in Perth and Kinross. Over the last year the new draft Joint Strategic Plan has been formulated through a wide ranging consultation and providers have had the opportunity to be closely involved.
- 5.2 As part of the transition towards integration the Scottish Government introduced an Integrated Care Fund to provide funding for projects to pilot new and radical approaches designed to deliver some of the outcomes connected with joint objectives - maintaining vulnerable people and people with complex health and social care needs in the community with less need for input from formal services. From a Perth & Kinross allocation of £2.622m for 2015-16, projects to the value of £1.031m have been commissioned from voluntary sector providers. These projects are included in Appendix 1.

6. PROPOSALS

- 6.1 A detailed list of providers receiving funding is provided in the appendices to this report as follows:

- Appendix 1 provides the list of Service Level Agreements, Block Contracts and also Individual packages which are purchased on a spot basis for 2015-16, to the total value of £14,520million. This includes projects funded via the Integrated Care Fund to the value £0.925 million for 2015-16. It should be noted that contract values remain subject to variation throughout the year if there are changes in support needs or in the people being supported
- Appendix 2 provides the list of care homes operating under the National Care Home Contract and several specialist providers operating in Perth & Kinross. The net budget for residential and nursing homes is £19.7million for 2015-16 for all care groups, including out of area placements
- Appendix 3 provides the list of external care at home agencies operating under pre-placement agreements in Perth and Kinross, with a budget of £5.8 million for 2015-16

7. CONCLUSION AND RECOMMENDATIONS

- 7.1 This report stresses the importance of the draft Joint Strategic Plan issued for consultation in November 2015, which will provide a new framework for agreeing commissioning priorities in the future.
- 7.2 There are also several other important issues highlighted in this report which will impact on our commissioning arrangements over the next period of time, including changes in procurement guidance and the impact of Living Wage Policy.
- 7.3 It is recommended that the Housing and Health Committee:
- Notes the Housing and Community Care contracts and service level agreements which are currently commissioned and the value of these services purchased during 2015-16.
 - Notes the changing legislative and policy environment which will impact on the delivery of care services for vulnerable people in Perth and Kinross.

1. IMPLICATIONS, ASSESSMENTS, CONSULTATION AND COMMUNICATION

Strategic Implications	Yes / None
Community Plan / Single Outcome Agreement	Yes
Corporate Plan	Yes
Resource Implications	
Financial	Yes
Workforce	None
Asset Management (land, property, IST)	None
Assessments	
Equality Impact Assessment	None
Strategic Environmental Assessment	None
Sustainability (community, economic, environmental)	None
Legal and Governance	None
Risk	Yes
Consultation	
Internal	Yes
External	None
Communication	
Communications Plan	None

1. Strategic Implications

Community Plan / Single Outcome Agreement

- 1.1 This report supports the following outcomes from the Community Plan/Single Outcome Agreement:

- Supporting people to lead independent, healthy and active lives
- Developing educated, responsible and informed citizens

Corporate Plan

- 1.2 As outlined in section 1.1 above.

2. Resource Implications

Financial

- 2.1 The expenditure referenced in the appendices to this report was approved as part of the Council's Budget for 2015-16.

Workforce

- 2.2 There are no workforce implications arising from this report.

Asset Management (land, property, IT)

- 2.3 There are no land, property or IT implications arising from this report.

3. Assessments

Equality Impact Assessment

- 3.1 Under the Equality Act 2010, the Council is required to eliminate discrimination, advance equality of opportunity, and foster good relations between equality groups. Carrying out Equality Impact Assessments for plans and policies allows the Council to demonstrate that it is meeting these duties.

The contents of this report have been considered under the Corporate Equalities Impact Assessment process (EqIA) with the following outcome:

- (i) Assessed as **not relevant** for the purposes of EqIA

Strategic Environmental Assessment

- 3.3 The Environmental Assessment (Scotland) Act 2005 places a duty on the Council to identify and assess the environmental consequences of its proposals.

The contents of this report have been considered under the Act, however, no action is required as the Act does not apply to the matters presented in this report. This is because the Committee are requested to note the contents of the report only and the Committee are not being requested to approve, adopt or agree to an action or to set the framework for future decisions.

Sustainability

- 3.3 Under the provisions of the Local Government in Scotland Act 2003 the Council has to discharge its duties in a way which contributes to the achievement of sustainable development. In terms of the Climate Change Act, the Council has a general duty to demonstrate its commitment to sustainability and the community, environmental and economic impacts of its actions.

No steps are required to be taken in this area.

Legal and Governance

- 3.4 The Head of Legal Services has been consulted on the content of this report.

Risk

- 3.6 The risks that are associated with the purchase of external services delivery are managed through the service level agreements and contracts, which are closely monitored and evaluated, as part of Housing and Community Care's quality assurance framework, which is compliant with the 'following the public pound' principles.

4. Consultation

Internal

- 4.1 The Heads of Legal and Finance and the Chief Social Work Officer have been consulted on this report.

External

- 4.2 Not required for this report.

5. Communication

- 5.1 Not required for this report.

2. BACKGROUND PAPERS

There are no background papers are referred to in this report:

3. APPENDICES

Appendix One – Service Level Agreement, Block Contract and Individual Packages.

Appendix Two – Care Homes operating under the National Care home Contract.

Appendix Three – Care at Home agencies operating under pre-placement agreements.
