

Appendix A: Summary of performance¹, services providing day care of children inspected by the Care Inspectorate^{2,3}

Commentary: Performance over the last 3 years has been steady and above comparators when looking at 'Good or better' ratings. At 'Very good or better' there is a slight downward trend but which remains well above comparators. The national trend down is linked to higher expectations from Care Inspectorate inspections and preparation for introduction of the National Standard for FLC.

Note: Axis adjusted to emphasise differences

¹ Note that rounding of percentage figures may mean totals reported elsewhere do differ.

² Note that comparator and national proportions include all services for day care of children whereas Perth and Kinross figures only represent local authority and partner provider services. It also restates previous gradings when quality themes are not assessed.

³ Comparator local authorities are Argyll and Bute, Aberdeenshire, Stirling, Scottish Borders and Highland Council. Comparator and national proportions only available until 31 January 2019

⁴ Inspected, published and reported to Lifelong Learning Executive Sub Committee by 5 February 2019.
