INTERNAL AUDIT FOLLOW UP

Report by Chief Internal Auditor (Report No. 18/218)

PURPOSE OF REPORT

This report presents a current summary of Internal Audit's 'follow up' work.

1. BACKGROUND AND MAIN ISSUES

- 1.1 The Public Sector Internal Audit Standards (PSIAS) require the Chief Internal Auditor to establish a follow-up process to monitor and ensure that management actions have been effectively implemented. To assist the Audit Committee, the appendices to this report provide information on those actions that have not been implemented in accordance with the original agreed timetable, or where there is insufficient information on the current situation. Some dates have been revised and agreed with Services in recognition of the need for more time to complete the actions.
- 1.2 Appendix A presents a summary of the number of actions arising from internal and external audit reports.
 - Table 1 shows the total number of agreed actions which Internal Audit will be following up even where the originally agreed completion dates have not yet been reached; the total number of actions is 55.
 - Table 2 shows the number of agreed actions that have been reported as incomplete as at their original agreed completion date. These total 26, of which 17 had a completion date of March and April 2018 and are therefore detailed in the following Appendices B to E.
 - A further 9 actions not completed by their original date have been allocated revised dates for completion after 30 April 2018 and progress will be reported on these at a future Committee.
 - The number of agreed actions which have yet to be followed up as the date for completion is after 30 April 2018 is 29.
- 1.3 In both tables, the actions are grouped by Service and reported by 'importance' of the agreed actions. The importance of each action is documented in the original Internal Audit reports considered by the Audit Committee. Reported importance ratings range from 'critical', where there are significant financial, reputation, legal, performance, or safety issues, to 'low', where the risks are lower but there may be opportunities for improving processes and procedures. Reports produced by external audit do not explicitly state the importance of each individual action and are therefore included in the tables as 'not rated'.

- 1.4 Following Service re-organisation, the outstanding actions have been reviewed and have been aligned with the new Service with responsibility for that area. Comparable figures from the previous report to Audit Committee for individual Services have not been included however the total number of actions in each category has been provided.
- 1.5 Appendices B to E present detailed follow-up information in respect of actions agreed for completion in the period of March and April 2018.
- 1.6 The Audit Committee has requested information regarding any action with a 'critical' or 'high' risk rating which has not been completed on its originally agreed date. Table two highlights two such instances of 'high' risk actions. One of these actions relates to the audit on Personalisation in respect of monitoring risk and is included Appendix C. The other relates to the audit of LEADER and update of the Business Plan.

2. PROPOSALS

- 2.1 It is recommended that the Committee seeks assurance that there are clear and achievable action plans for completing the agreed actions noted above.

3 CONCLUSION AND RECOMMENDATIONS

- 3.1 The Audit Committee is asked to consider the most appropriate action to be taken to progress the agreed Action Plans.
- 3.2 It is recommended that the Audit Committee:
- (i) Note the current position in respect of the agreed actions arising from internal and external work; and
 - (ii) Consider the most appropriate action to be taken to progress the agreed action plans, taking into account the recorded audit opinions.
