

PERTH AND KINROSS COUNCIL**Environment, Enterprise and Infrastructure Committee****14 June 2017****PROPOSED ADDITIONAL GREEN ROUTES****Report by Director (Environment)**

This report outlines the success of previously introduced Green Routes in promoting these roads for use by more sustainable transport modes. It also recommends that an additional four routes (Bridge of Earn/Glenfarg, Glenfarg/Milnathort, and Rattray/Alyth, Kirkton Road/Old Mill Road to Ashgrove Road to West Mill farm, Rattray) be promoted as Green Routes.

1. BACKGROUND**Green Routes**

- 1.1 The objective of the provision of “Green Routes” is to improve the infrastructure for cyclists, walkers and equestrians within the area. A report to the Enterprise & Infrastructure Committee in January 2013 (Report 13/43 refers) gave approval for the provision of a pilot project in, and around, the Balado/Crook of Devon, Loch Earn and Kingoodie areas. This pilot project was successful and a report to the Enterprise & Infrastructure Committee in September 2014 (Report 14/373 refers) gave approval for the provision of further Green Routes in the Carse of Gowrie and Coupar Angus areas. A report submitted to the Enterprise & Infrastructure Committee on 11 November 2015 (Report 15/527 refers) gave approval for further Green Routes in the Kenmore, Wester Balgeddie/Glenlomond and Longforgan areas. In addition, a report submitted to the Enterprise & Infrastructure Committee (Report 16/496 refers) gave approval for further Green Routes in the Cleish and Muthill areas.
- 1.2 A list of the sites where Green Routes have been established in the Perth and Kinross area is show in Appendix 1.
- 1.3 It is important to ensure that the routes chosen to have reduced speed limits are self-enforcing. The routes must be narrow lanes, and, on average, no more than 4m wide. It is considered very unlikely that the provision of a reduced speed limit on a route that is wider than 4m will have the desired effect. In addition, it will not reduce vehicle speeds to a satisfactory level to allow the route to be promoted and used by cyclists, walkers and equestrians.

2. PROPOSALS

- 2.1 Discussions with local communities and cycling groups indicate that the Green Routes have proved very popular with road users. As a result, it is now proposed to continue the provision of similar measures in other areas of Perth and Kinross.
- 2.2 It is proposed to introduce new Green Routes between Bridge of Earn and Glenfarg, Glenfarg and Milnathort, Rattray and Alyth, and Kirkton Road/Old Mill Road to Ashgrove Road to West Mill farm, Rattray. These routes have been identified and are shown in Appendices 2 to 5.
- 2.3 The proposed routes have been assessed and vehicle speeds recorded. Each of the routes is currently subject to the national speed limit although the traffic survey data reveals that average speeds are well below this. It is, therefore, proposed that the routes will be subject to 30/40mph speed limits and the changes to the relevant Traffic Regulation Orders (TROs) progressed.

3. CONCLUSION AND RECOMMENDATIONS

- 3.1 The Committee has previously agreed to make a number of roads into Green Routes to improve the infrastructure for cyclists, walkers and equestrians. If objections are raised, these will be reported back to Committee, with appropriate recommendations. The changes to the relevant Traffic Regulation Orders to amend the speed limits will be progressed in 2017/18.
- 3.2 It is recommended that the Committee approves:
- (i) that the proposed routes in Appendices 2 to 5 are taken forward as an addition to the Green Routes projects, to be implemented in financial year 2017/18.
 - (ii) the start of the legal process to promote the relevant Traffic Regulation Orders to vary the speed limits as detailed in Appendices 2 to 5.
 - (iii)

1. IMPLICATIONS, ASSESSMENTS, CONSULTATION AND COMMUNICATION

| Strategic Implications | Yes/No |
|---|---------------|
| Community Plan / Single Outcome Agreement | Yes |
| Corporate Plan | Yes |
| Resource Implications | |
| Financial | Yes |
| Workforce | None |
| Asset Management (land, property, IST) | None |
| Assessments | |
| Equality Impact Assessment | Yes |
| Strategic Environmental Assessment | Yes |
| Sustainability (community, economic, environmental) | Yes |
| Legal and Governance | Yes |
| Risk | None |
| Consultation | |
| Internal | Yes |
| External | Yes |
| Communication | |
| Communications Plan | Yes |

1. Strategic Implications

Community Plan / Single Outcome Agreement

- 1.1 The Perth and Kinross Community Planning Partnership (CPP) brings together organisations to plan and deliver services for the people of Perth and Kinross. Together the CPP has developed the Perth and Kinross Community Plan which outlines the key things we think are important for Perth and Kinross.
- i) Giving every child the best start in life
 - ii) Developing educated, responsible and informed citizens
 - iii) Promoting a prosperous, inclusive and sustainable economy
 - iv) Supporting people to lead independent, healthy and active lives
 - v) Creating a safe and sustainable place for future generations
- 1.2 It is considered that the actions contained within this report contribute to all of the above objectives.

Corporate Plan

- 1.3 The Council's Corporate Plan 2013-2018 outlines the same five objectives as those detailed above in the Community Plan. These objectives provide a clear strategic direction, inform decisions at a corporate and service level and shape resource allocation. It is considered that the actions contained in the report contribute to the objectives as outlined in paragraph 1.2 above. These objectives are met by implementing schemes which promote road safety.

2. Resource Implications

Financial

Capital

- 2.1 There are no capital resource implications arising directly from the recommendations in this report.

Revenue

- 2.2 There will be costs for advertising the necessary Order in the press. It is proposed that an Order be promoted to cover the listed location. The estimated cost of advertising an Order is £300. These costs will be met from the Road Safety and Design budget in 2017/18.
- 2.3 There will also be costs for the signage required. This has been estimated at £28,000 and will be met from the Cycling, Walking and Safer Streets budget (£20,000), Traffic Regulation Order Works (£5,000) and Road Safety Initiatives (£3,000) in 2017/18.

Workforce

- 2.4 There are no workforce implications arising from this report.

Asset Management (land, property, IT)

- 2.5 There are no land and property, or information technology implications arising from the contents of this report.

3. Assessments

Equality Impact Assessment

- 3.1 Under the Equality Act 2010, the Council is required to eliminate discrimination, advance equality of opportunity, and foster good relations between equality groups. Carrying out Equality Impact Assessments for plans and policies allows the Council to demonstrate that it is meeting these duties.

3.2 This section should reflect that the proposals have been considered under the Corporate Equalities Impact Assessment process (EqIA) with the following outcome:

- (i) Assessed as **not relevant** for the purposes of EqIA.

Strategic Environmental Assessment

3.3 Strategic Environmental Assessment (SEA) is a legal requirement under the Environmental Assessment (Scotland) Act 2005 that applies to all qualifying plans, programmes and strategies, including policies (PPS). The proposals have been considered under the Act and no further action is required as it does not qualify as a PPS as defined by the Act and is therefore exempt.

Sustainability

3.4 Under the provisions of the Local Government in Scotland Act 2003 the Council has to discharge its duties in a way which contributes to the achievement of sustainable development. In terms of the Climate Change Act, the Council has a general duty to demonstrate its commitment to sustainability and the community, environmental and economic impacts of its actions.

3.5 The proposals contained within the report are assessed to have a positive impact on sustainability, particularly with regard to encouraging lower traffic speeds.

Legal and Governance

3.6 The Order will be promoted in accordance with The Local Authorities' Traffic Orders (Procedure) (Scotland) Regulations 1999.

Risk

3.7 There are no significant risks associated with the implementation of this project.

4. Consultation

4.1 The Head of Legal and Governance, the Head of Democratic Services and the Head of Finance have been consulted in the preparation of this report.

4.2 Police Scotland, the Local Elected Members and Community Councils have also been consulted and support the proposal.

5. Communication

- 5.1 Approval will allow a start to be made to the formal procedure to generate a Traffic Regulation Order (TRO). This procedure will involve statutory consultation, preparation of a draft TRO and advertising in the press. This will provide an opportunity for additional comments to be made or objections to be raised.
If objections are raised, these will be reported back to Committee, with appropriate recommendations.

2. BACKGROUND PAPERS

- 2.1 The following background papers, as defined by Section 50D of the Local Government (Scotland) Act 1973 (and not containing confidential or exempt information) were relied on to a material extent in preparing the above Report:
- Enterprise & Infrastructure Committee January 2013 (Report 13/43 refers)
 - Enterprise & Enterprise Committee September 2014 (Report 14/373 refers)
 - Enterprise & Infrastructure Committee November 2015 (Report 15/527 refers)
 - Enterprise & Infrastructure Committee November 2016 (Report 16/496 refers)

3. APPENDICES

- 3.1 Appendix 1– Green Routes – list of routes
3.2 Appendix 2, 3, 4 and 5 – proposals for new Green Routes
