

LRB-2023-59

23/01495/FLL - Change of use from flat to short-term let accommodation unit (in retrospect), 5 Garry Place, Toberargan Road, Pitlochry, PH16 5AH

REPRESENTATIONS

Dr Colin Walls (Objects)

Comment submitted date: Sat 23 Sep 2023

The properties in Garry Place would count as "affordable", the flats there provide lower cost accommodation for those living in Pitlochry.

Objection

We object to this planning application in the strongest terms, because it provides no benefit to the town, and will actually be detrimental. We give our reasons for this in the following section

Impact on the Town

The town is currently short of staff in a number of key areas. This is not restricted to retail and hospitality, but also includes such vital areas as the medical centre, community hospital, pharmacies, the high school and theatre.

At least part of these staffing issues is due to the scarcity and high cost of accommodation in the town. While those with cars can find accommodation outside the town, those who are reliant on public transport may not have this option, or may be restricted in the hours that they can work because of the public transport timetables.

The application does not provide any redress for the above problem, in actuality it exacerbates it, since it brings more visitors into the town and potentially removes accommodation for those who would wish to live in the town.

Penalising potential employers by restricting the availability of accommodation does nothing for the prosperity of the town, especially as these employers would provide skills development for the workforce in general and for younger people in particular.

Data from other areas within the UK would indicate that short-term lets do little for local prosperity, firstly because those who take up such accommodation tend to bring what they need with them, rather than spending in area and its surroundings. Secondly, there is a further reduction to income in the area if the rental properties are not locally owned.

The short-term lets will be seasonal in nature, and will provide no income for the town out of season.

Such short-term letting adds nothing to the prosperity of the town. What is required is long-term letting, preferably for a minimum term that covers the tourist season.

Consultation on an Application for Planning Permission 23/01495/FLL RE: Change of use from flat to short-term let accommodation unit (in retrospect) 5 Garry Place Toberargan Road Pitlochry PH16 5AH

I refer to your letter dated 20 September 2023 in connection with the above application and have the following comments to make.

Environmental Health Recommendation

I have no objections to the application but recommend the undernoted informative be included in any given consent.

Comments

This application is for the change of use of a ground-floor flatted dwelling at 5 Garry Place, Pitlochry to a short term let accommodation unit (in-retrospect). It is my understanding that the property is currently being utilised as holiday accommodation however there are no details in relation to how long this has been the case.

Holiday Accommodation

As the development is for a holiday accommodation unit, there is the potential for noise from the users of the properties to affect neighbouring residential properties, however due to the introduction of Civic Government (Scotland) Act 1982 (Licensing of Short-term Lets) Order 2022, these will be required to be licensed and noise conditions will form part of the licence.

Therefore, whilst I have no objections to the application, I would recommend the following informative be attached to any given consent.

Informative

Short Term Let

The applicant is advised that under The Civic Government (Scotland) Act 1982 (Licensing of Short-term Lets) Order 2022, a licence is required to operate a short-term let. More information can be found at <https://www.pkc.gov.uk/shorttermlets>

Comments to the Development Quality Manager on a Planning Application
