Notice of Review

Application Number 23/01479/FLL

Change of use of flat to form short-term let accommodation unit (in retrospect) 8 Cathedral Street Dunkeld PH8 0AW

Introduction

This Notice of Review is submitted following the refusal of planning permission under delegated powers on the 14th December 2023 for the Change of use of flat to form short-term let accommodation unit (in retrospect) 8 Cathedral Street Dunkeld PH8 0AW.

The applicant's application was refused on the following grounds:

1. The proposed retrospective change of use is contrary to Policy 30(e): Tourism of National Planning Framework 4 (2023) as the proposal would result in:

- i. An unacceptable impact on local amenity and character of the area, and*
- ii. The loss of residential accommodation where such loss is not outweighed by demonstrable local economic benefits.*

2. The proposal is contrary to National Planning Framework 4 (2023) Policy 14(c): Design, Quality and Place and Perth and Kinross Local Development Plan 2 (2019), Policies 1A and 1B: Placemaking and Policy 17: (d) Residential Areas as the short-term let accommodation would adversely impact on the amenity of neighbouring residents and the short-term let use would not be compatible with the amenity and character of the surrounding predominantly residential area.

Having had the opportunity to review fully the stated reasons for the refusal of the application, we are making our appeal to the local review body for the reversal of the decision of refusal. Please therefore find appended our supporting documentation and appendices as noted below:

Appendix 01: Occupancy Figures (average 280 days a year)

Appendix 02: **12** Letters of Support from Local Businesses

Appendix 03: **15** Letters of Support from Local Residences (those notified as part of planning process)

Appendix 04: Extract from Mortgage Provider

We note Perth and Kinross planning guidance which was published after our application was submitted to the planning department, therefore we were unable to address the aspects of this guidance as part of our application as it wasn't available at the time of application.

We note there is no specific policy in the current Perth and Kinross Local Development Plan 2 (LDP2) for the control of short-term lets. In terms of the Development Plan, the policy framework for assessing planning applications is therefore set out in the National Planning Framework 4 (NPF4), Policy 30: Tourism.

We note the planning guidance now available has been prepared to assist in the application of the policy framework set out in NPF4 and in the assessment of planning applications for the change of

use of a residential property to a short-term let. We also note that Perth and Kinross Council have not as yet ratified any Control areas for short term lets, therefore the aspects noted are guidance based as opposed to planning policy.

Applicant and property Background:

The applicant was born and brought up in Dunkeld, attended the local schools and his family had formed an active part of the local community over many years. 8 Cathedral Street has been in the applicants family for 47 years. Owned by the applicants Grandmother, it was passed to his uncle when she passed away, and the applicant purchased the property from him in 2005.

The flat at this point remained empty as the applicant was working overseas but was used when he was home on leave, approximately 2 -3 weeks a year. The applicant fully renovated the flat in 2009 and continued to use the flat 2 to 3 weeks of the year up until 2012.

He moved back to Dunkeld, staying in the flat full time for 12 months. Then from 2013 to 2015 he would use the flat 6 months of the year, so the flat would be empty for the remaining 6 months. 2015 the applicant took a full-time job down south, and the flat reverted back to being used for one weekend a month and Christmas and new year.

2016/2017 the applicant started short term lets, but was still using the house once a month and at Christmas, from 2021 to the present time the flat has been a full time holiday let only have access to for maintenance.

If the appeal application is rejected, the flat will revert back to being used once a month by the applicant, and at Christmas and new year when they are on holiday, effectively sit empty for most of the year.

The apartment is situated in a busy area of the bustling village of Dunkeld which relies on the tourism industry to ensure the long-term viability of the village and local businesses.

Point 1:

1. The proposed retrospective change of use is contrary to Policy 30(e): Tourism of National Planning Framework 4 (2023) as the proposal would result in:

- i. An unacceptable impact on local amenity and character of the area, and*
- ii. The loss of residential accommodation where such loss is not outweighed by demonstrable local economic benefits.*

Point 1 – Part 1

An unacceptable impact on local amenity and character of the area.

The applicant's property has functioned successfully as a short term let for the past 8 years, there has been no detrimental impact on the surrounding character and amenity, as a result of the established use. Therefore the concerns regarding an unacceptable impact on local amenity, and the local character of the area, we feel is unfounded and unsubstantiated. When we requested clarification upon how this has been determined and upon which documentation our proposal has been considered, we have found there to be limited barometers to form a credible review, it feels very subjective rather than objective.

The property is located on one of the busiest streets situated in Dunkeld, Cathedral Street. This is the main access to and from Dunkeld Cathedral and it's associated grounds for tourists and locals alike all year round. With Cathedral Street forming the only access to the Cathedral itself, the most popular tourist attraction in Dunkeld, on any one day there can be large volumes of people pass the property, on top of this there are weekly services, mid-week events, Weddings and funerals. Annually for the Orange order march, and Cameronian's March. It is not a quiet, purely residential area.

With the numbers of people visiting Dunkeld growing exponentially year on year, a visit to the cathedral forms part of their itinerary, this number is set to increase.

Visitors to Cathedral

Cathedral Steet is also home to a number of businesses, Going Pottie, a very popular pottery studio and gift shop, the Cloutie Dumpling a very successful, busy coffee shop, with a lot of foot fall from tourists, and also the Chanonry, which is used for the woman's club, the kitting club, youth club various meetings, tea and coffees after services, also once a week for the men's breakfast club.

These are all non-residential functions in extremely close proximity to the applicant's property. The pend which runs adjacent to the property is also heavily used by tourists and locals to access the waterfront, local walking routes and the playpark, the property is therefore flanked by two very busy and well used routes.

We therefore do not believe the continuing use of this property let would have any detrimental impact on the character and amenity of the area, as this would already have been established given it has been running for eight years.

Point 1 – Part 2

ii. The loss of residential accommodation where such loss is not outweighed by demonstrable local economic benefits.

The existing holiday let, No 8 Cathedral Street has been in the applicant's family for generations and whilst the applicant was born and brought up in Dunkeld, is having to live and work remotely due to current employment but fully intends to move back to Dunkeld in the future, hence the property offered as a short term let.

Our client cannot see any immediate circumstance that would lead him to sell the flat nor is he wishing to release the property to the long term letting market as he still utilises the property periodically he is visiting family and friends still living in the area on a regular basis. Therefore the following aspects are key:

- This property will never be available for long term let.
- This property will not be sold.

The applicant's mortgage is based on a 5 year fixed term (currently 2 years into this mortgage) which is specifically for short term lets and prohibits long term letting even if he wanted too. Please refer to Appendix 04 which highlights the relevant section from mortgage documentation.

As the property won't be rented out long term, it hasn't in almost 5 decades, and it won't be sold, the property is therefore not offering any loss to the local residential accommodation stock. If not a short term let it will sit empty for long periods of time, which we feel has a detrimental impact on the village where tourism is a key income to local businesses.

The applicant has received 12 letters of support from local businesses, please refer to appendix 02, confirming their support and noting the importance of tourism on their business and local employment. There is clearly support from local businesses for holiday lets in Dunkeld who recognised their importance to the local economy.

If hypothetically the property was to come on the market, it would not be deemed affordable, as the average house / flat price on cathedral street is high as properties do not come up very often:

We have noted below recent sales in the last 3 years ,

- 6b Cathedral st - offers over £240k - unknown sold price - 2 bed top floor [flat.no](#) garden. in need of renovation.
- 18 Cathedral st - offers over £180k - sold for £210k - one bedroom ground floor flat. has garden
- 7 water wynd - offers over £195k - sold for £270k - 2 bedroom top floor [flat.in](#) need of renovation. has garden (this is the flat located at the bottom of my garden)

The applicants property has larger Square footage , is located on the ground floor with front and rear access, a small garden area and has recently been fully renovated to a good standard. Therefore it would hit the market at offers over £240k, this is not classed as affordable housing. Interestingly none of the above were bought by locals, Number 7 Water Wynd and 18 Cathedral Street now sit empty for a large proportion of the year as they have been bought as second homes for holiday use only.

There are however many local economic benefits to retaining this property as a holiday let as opposed to it sitting empty. The property currently lets on average 280 days per year (based on last three years average) an average of 50 customers a year (many returning year on year) all using and supporting local shops and restaurants. (Please refer to appendix A) Therefore there is clearly a demand for self catering accommodation of this nature within a busy and easily accessible location to all of the local attractions and to support local businesses. Local businesses have written letters in support of this application, please refer to appendix 2

As well as this the applicant also employs a number of local people for services as outlined below:

- local cleaners
- local laundry
- local gardner
- local window cleaner
- All local trades joiner / plumber / electrician/gas for annual inspections and safety checks.

As noted above this property will never be released on to the long term let market and will not be sold due to the family heritage associated with the property, therefore we feel the proposal meets the criteria and isn't contrary to this part of the guidance in anyway.

Point 2

2. The proposal is contrary to National Planning Framework 4 (2023) Policy 14(c): Design, Quality and Place and Perth and Kinross Local Development Plan 2 (2019), Policies 1A and 1B: Placemaking and Policy 17: (d) Residential Areas as the short-term let accommodation would adversely impact on the amenity of neighbouring residents and the short-term let use would not be compatible with the amenity and character of the surrounding predominantly residential area.

As highlighted in the initial points noted above, we do not believe this area to be solely residential for the following reasons:

- On one of the busiest streets in Dunkeld
- Main tourist / local, vehicular and pedestrian route to and from Dunkeld Cathedral and grounds.
- Adjacent park used heavily for access to the river front, play park and pedestrian walks.
- 2 busy commercial businesses in very close proximity.
- Church of Scotland Chanonry in close proximity used by local groups on a regular basis.

Given the points noted above the residents of flats located on Cathedral Steet, which are mainly owned by the National trust, reasonably expect heightened level of street noise, so the use of a holiday let flat would be less noticeable to residents than it may be in other locations.

This property has been a holiday let for the past 8 years and does not lend itself to large groups due to its size, and is very much ran on the basis that the maximum occupancy at anyone time is 3 to 4 persons.

15 Neighbours have written letters of support of this application, please find attached in appendix 03. Confirming they have never experienced any noise impact from the holiday let, they do not believe the holiday let has a detrimental impact on the local amenity and support the application.

The Pattern of use of the property is also important we feel to demonstrate, the property has a Friday check in policy and only after 3.30pm, with check out at 10am and a 3-night minimum booking period. (There is a strict no party policy, patrons have adhered to this over the past 8 years which has all resulted in zero noise complaints from any neighbours over this period of operation).

It is therefore, by its very nature, not given rise to any anti-social behaviour or caused any issues as a result of being a short term.

There is no parking at the property, and this would remain so. Patrons arrive by train or other forms of either private or public transport.

We therefore do not believe this area is solely residential, it is an extremely busy area of Dunkeld. A holiday let in this location we feel offers the opposite; a sensible use of a property that would otherwise sit empty for large parts of the year, offering support to local businesses and in close proximity of all the main tourist attractions Dunkeld has to offer.

The continuing use of this property let would not have any detrimental impact on the neighbours or the character and amenity of the area, as this would already have been established given it has been running for eight years.

Conclusion

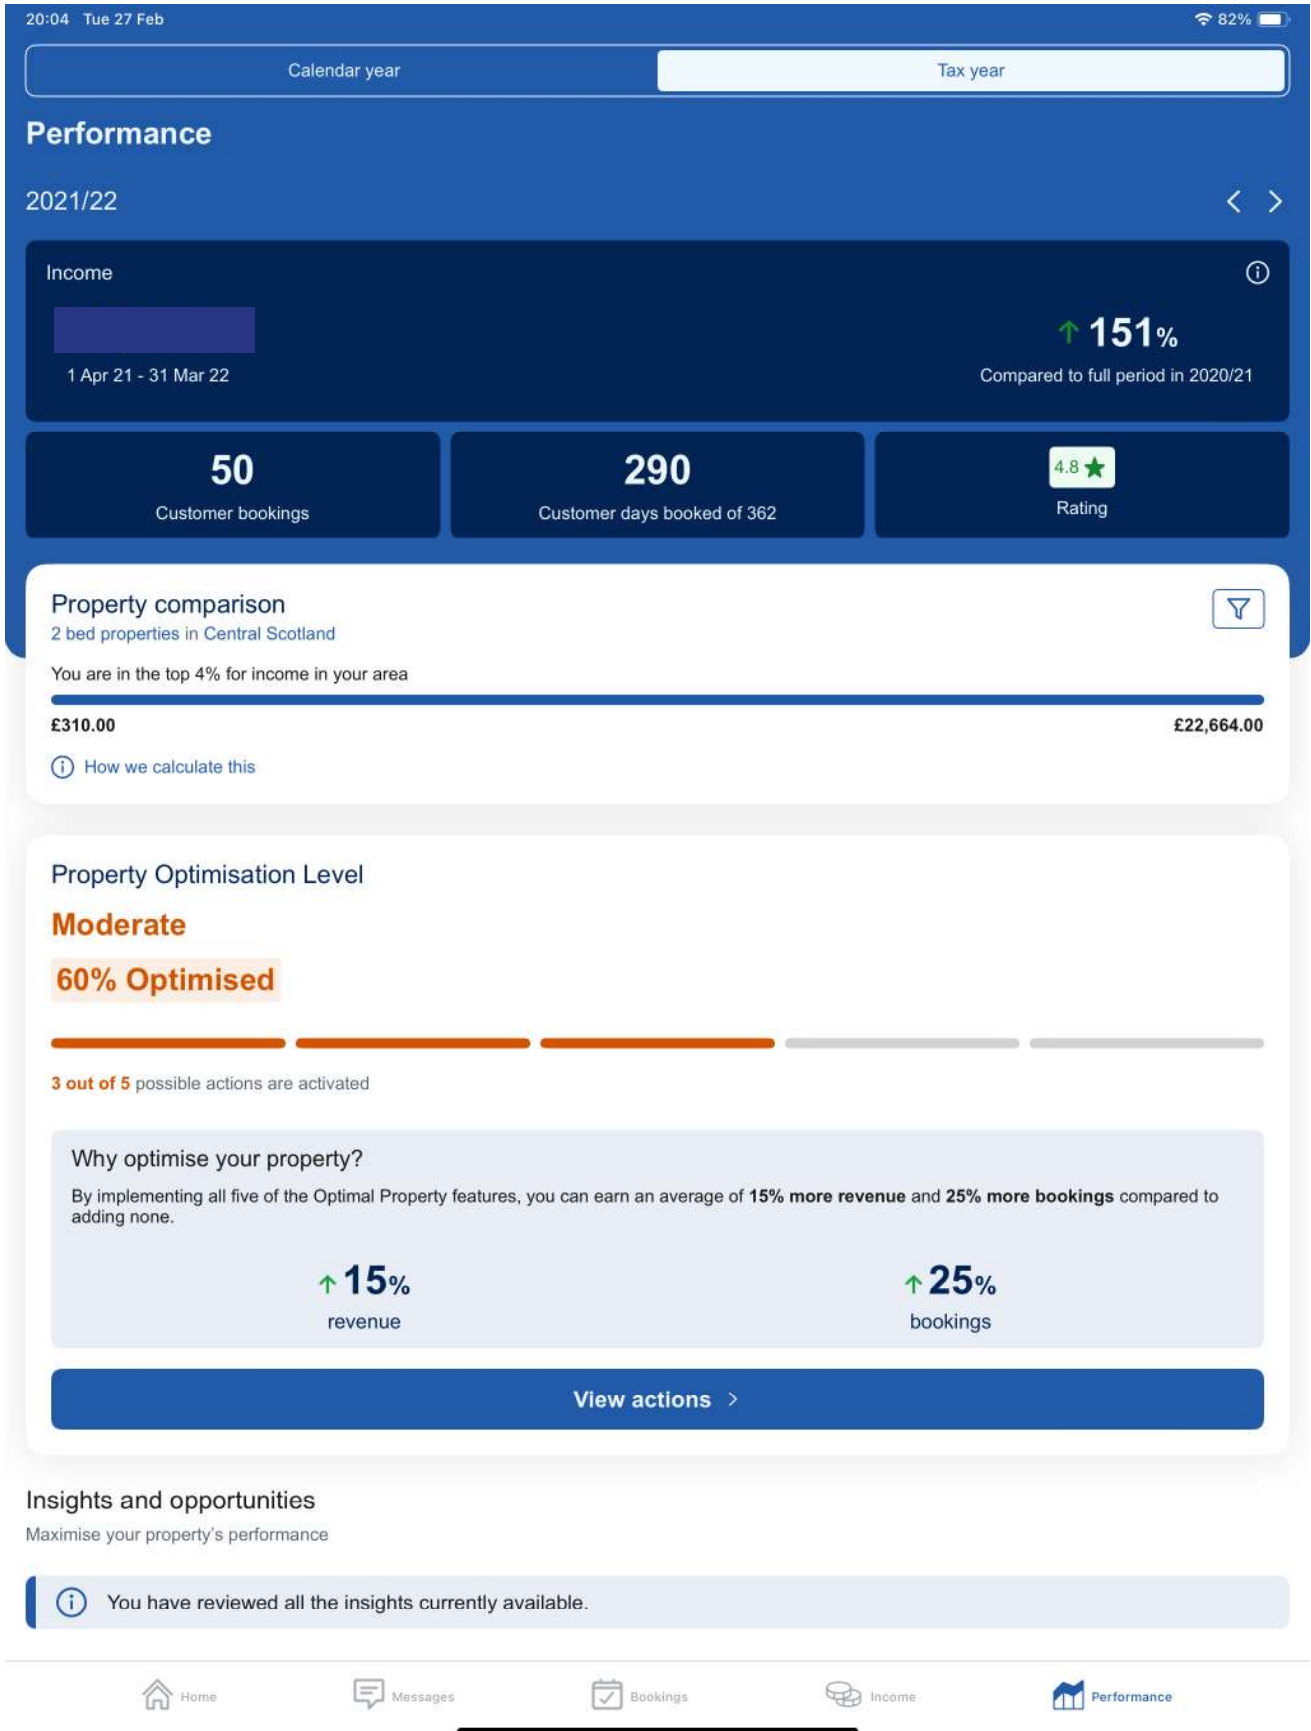

Whilst we understand the essence of the guidance and the need to address the perceived loss of residential accommodation. We feel it is hugely unfair to penalise the current short term let owners for this. Fair enough when assessing new, short term lets coming on to the market, however where one has been operating successfully without any issues for eight years seems very unjust.

If not permitted to continue as a holiday let the property will remain empty, having an adverse effect on the local economy through loss of income to local businesses, loss of income to those employed through the holiday let and loss of footfall to local tourist attractions.

For all the reasons outlined above, we feel the application in supporting the reversal of the decision for refusal be overturned is a fair and reasonable request, as the application is not contrary to policy.
