

Definitions of the Road Classification

- A Class – these are the highest class of the Council's road network. They are identified by the Local Roads Authority.
- B Class – these are the second tier in the Council's road network. They are identified by the Local Roads Authority.
- C Class – these are the third tier in the Council's road network. They are identified by the Local Roads Authority. No number is officially associated with a classified unnumbered road, although the Local Roads Authority is entitled to develop its own methods to identify it.
- Unclassified – these are the fourth tier in the Council's road network. If not stated otherwise, roads are assumed to be unclassified. No number is officially associated with an unclassified road, although the Local Roads Authority is entitled to develop its own methods to identify it.
