

## PERTH AND KINROSS COUNCIL

## Environment Committee

20 January 2016

## THE ENVIRONMENT SERVICE SCHEME OF CHARGES 2016/17

## Report by Director (Environment)

This report provides details of the charges in place within The Environment Service for financial year 2015/16 and the proposed charges for financial year 2016/17 as detailed in Appendix 1. Environment Committee are asked to consider and comment on the proposed charges as set out in Appendix 1 of this report. Final approval of charges will be determined by the Council in February 2016.

**1. BACKGROUND / MAIN ISSUES**

- 1.1 Section 9.1.1 of the Council's Financial Regulations state that a review of charges must be undertaken at least annually and a revised Scheme of Charges submitted to the relevant themed Committee for consideration.
- 1.2 The Corporate Charging policy approved by the Strategic Policy & Resources Committee on 23 September 2015 (report No. 15/401 refers) sets out the key principles to be followed when setting charges, charges in scope and the annual process to be undertaken in carrying out reviews of individual charges. This ensures consistency across the Council while allowing Services the flexibility to shape their approach/policy to meet the needs of customers.
- 1.3 Services are required to submit their proposed list of charges to themed Committees in January/February of each year in advance of setting the budget by the Council in February (report No.15/276 refers). This provides Committees with an opportunity to examine Service proposals and recommend charges, subject to final approval by the Council in setting the Revenue Budget for the year ahead.
- 1.4 All fees and charges should be set in line with the approved individual charging policy and fall into one of the following categories:

<b>Charging Strategy</b>	<b>Objective</b>
Commercial Charges	The Council aims to cover the cost of providing the service and make a surplus.
Full Cost Recovery	The Council aims to recover the costs of providing the service from those who use it.
Subsidised	The Council wishes users of the service to make a contribution to the costs of providing it. This might meet a service objective or allow competition with other providers.
Free	The Council chooses to make the service available at no charge to meet a service objective.

<b>Charging Strategy</b>	<b>Objective</b>
Statutory	Charges are determined in line with legal requirements.

## **2. PROPOSALS**

- 2.1 The Environment Service provide a diverse and wide range of chargeable services to the public and business community ranging from burials and planning fees to parking and commercial waste.
- 2.2 The charging arrangements are set based on a combination of legislative requirements, national policy guidance, market competition and local guidance. As a result, there is a mix of discretionary and non-discretionary charges levied by The Environment Service. The annual review process considers a number of factors including an assessment of previous years' income, trends in user demand, inflationary pressures, potential to move to payment at point of sale, council revenue budget and savings targets, alternative charging structures and potential impact on vulnerable groups. The charging strategy and specific proposals for 2016/17 are set out below with a detailed breakdown of the proposed charges to be levied with effect from 1 April 2016 in Appendix 1.
- 2.3 All income generated by charges contributes to service budgets and ensures the continued development and delivery of services.

### **Commercial & Domestic Waste – Full Cost Recovery (Appendix 1 Item 1)**

- 2.4 There is currently no differential charging between urban and rural locations. There is a limited commercial market for the provision of waste collection services in anything other than urban locations due to the associated economies of scale for private sector providers. This, combined with our statutory duty as a service provider of last resort, requires the Council to offer a commercial waste collection service, predominantly for rural locations if no other provider offers the service. Revised commercial waste and skip hire charges in 2015/16 had the effect of stabilising the customer base (approximately 1360) and attracting some new business to the Council. For 2016/17, it is proposed to leave the charges largely unchanged as operating costs remain relatively stable, with a view to further increasing the customer base and income generation. The volatility of the recycling commodity market will, however, require a degree of flexibility in charging customers the appropriate amount, relative to prevailing market prices throughout the year.
- 2.5 Budgeted commercial waste income in 2015/16 is £955k with costs of collection, disposal of waste and associated overheads offsetting this income.
- 2.6 Invoices to customers for commercial waste services are issued in advance of the new financial year to ensure full payment is received and/or direct debits are set up before the service is provided, minimising the financial risk to the Council.

- 2.7 In addition, and to provide a comprehensive trade waste service, it is proposed to re-introduce the acceptance of trade waste over the weighbridge at Friarton, Perth. This previous service was withdrawn due to the introduction of the Landfill Allowance Scheme. This had financial implications for the Council in terms of significant fines for exceeding landfill allowance tonnages. These have now been abolished.
- 2.8 The charge for disposal of waste at Friarton Weighbridge would be based on the current charging scheme. Charging will predominantly be by invoice, but any single charge under £20 will be cash only in line with the Council's Financial Regulations.

#### **Public Conveniences – Subsidised (Appendix 1 Item 1)**

- 2.9 The charge of 30p per visit has remained the same since 2006/07 and is considered to be a reasonable charge for use of the 7 attended public convenience facilities throughout the Council area. Any change would require to be in 10p increments for cash handling purposes and any increase would likely be met with customer resistance. Budgeted income in 2015/16 from paying customers is £80k, although the Council subsidises the provision of attended toilets at a net cost of approximately £170k per annum.

Moving to a full cost recovery approach would require charges to increase to at least 60p per visit assuming the same number of paying customers per annum (approx. 300,000 visits).

#### **North Inch Golf Course – Subsidised (Appendix 1 Item 4)**

- 2.11 Charges reflect market conditions, the quality of the playing experience and the Council's objective of making sport accessible to all across the social and demographic spectrum.
- 2.12 Following approval at an Executive Sub Committee of the Environment Committee on 05 March 2014 (Report No. 14/97) the implementation of the North Inch Golf Course marketing plan has led to an upturn in the courses performance over the last 18 months. However, this upturn has to be set against the current Scottish golf market which continues to see a national decline in golf club membership.
- 2.13 The Council is currently reviewing the performance of the Course over the last 18 months and future options for the North Inch Golf Course will be considered as part of the Council's budget setting exercise. The proposed charges for the North Inch Golf Course in 2016/17 have been included in Appendix 1 for information only.

#### **Football Pitches, Parks Events & Miscellaneous Facilities – Subsidised (Appendix 1 Item 5 & 6)**

- 2.14 Events and sports pitch charges are aimed at ensuring commercial events are charged according to their use of greenspace sites. Current levels also reflect the simplified arrangements for football pitch bookings approved by the Environment Committee on 26 March 2014 (Report No. 14/119 refers).
- 2.15 For 2016/17, it is proposed to increase all charges by 3% to recover general inflation and contribute towards subsidy levels. The assumed additional income has been included in the 2016/17 revenue budget proposals. Budgeted income for football pitches and parks events in 2015/16 is £30k.
- 2.16 In addition, based on feedback from customers, it is proposed to introduce new charges for:
- **Balloon flights.** These will be based on 50% of the charge for an Adult (Per Game 11 a-side).
  - **Commercial Bookings.** There have been occasions where some smaller commercial enterprises (e.g. operators of bouncy castles) have felt unable to commit to holding events on our parks and open spaces. Therefore, for smaller commercial enterprises that will only occupy a small area of our parks and open space, it is proposed to introduce a charge aligned with the Non-Commercial Bookings (101 to 500) expected attendees, and without the requirements for a commercial bookings refundable deposit.
  - **Cleaning Charge.** Where cleaning is required at a building / pavilion before or after an event this should be undertaken by Tayside Contracts with the costs charged to the relevant organisation. A deposit should also be taken for this service as part of the event booking process.
- 2.17 Charges are predominantly levied by invoice.

### **Burial & Cremation – Full Cost Recovery (Appendix 1 Items 7 & 8)**

- 2.18 Perth and Kinross Council burial charges are the 6th highest in Scotland. The average burial charges have increased on average by 10% across Scotland in 2015 when compared to 2014.
- 2.19 Perth and Kinross Council's increase was 3% for the same period and it is proposed to increase all charges by a further 3% for 2016/17. The assumed additional income has been included in the 2016/17 revenue budget proposals.
- 2.20 Perth and Kinross Council cremation charges remain the highest in Scotland for local authority run crematoria, but includes a £100 levy for Mercury Abatement which is accumulated into a reserves fund. This will support the refurbishment of Perth Crematorium as approved by the Environment Committee on 25 March 2015 (Report No. 15/147).
- 2.21 Cremation charges have increased on average by 5% across Scotland in 2015 when compared to 2014.

2.22 Perth and Kinross Council's increase was 3% for the same period and it is proposed to increase all charges by a further 3% for 2016/17. The assumed additional income has been included in the 2016/17 revenue budget proposals.

#### **Fleet MOTs – Statutory (Appendix 1 Item 9)**

2.23 Charges are set in line with statute. There has been no notification of any increase in charges for 2016/17. Charges are predominantly paid by cash, cheque or credit card.

#### **Statutory Fixed Penalty Notices – Statutory (Appendix 1 Items 10, 11 & 13)**

2.24 Charges are set in line with statute. There has been no notification of any increase in charges for 2016/17. Charges are predominantly paid by cash, cheque or credit card.

### **3. CONCLUSION AND RECOMMENDATION**

3.1 This report provides a summary of the proposed charges for 2016/17.

3.2 The Environment Committee are asked to consider and comment on the proposed charges as set out in Appendix 1 (Items 1, 4 to 11 and 13 Environment Committee).

## 1. IMPLICATIONS, ASSESSMENTS, CONSULTATION AND COMMUNICATION

<b>Strategic Implications</b>	<b>Yes / None</b>
Community Plan / Single Outcome Agreement	<b>None</b>
Corporate Plan	<b>Yes</b>
<b>Resource Implications</b>	
Financial	<b>Yes</b>
Workforce	<b>None</b>
Asset Management (land, property, IST)	<b>None</b>
<b>Assessments</b>	
Equality Impact Assessment	<b>Yes</b>
Strategic Environmental Assessment	<b>None</b>
Sustainability (community, economic, environmental)	<b>None</b>
Legal and Governance	<b>None</b>
Risk	<b>None</b>
<b>Consultation</b>	
Internal	<b>Yes</b>
External	<b>None</b>
<b>Communication</b>	
Communications Plan	<b>None</b>

### 1. Strategic Implications

#### Corporate Plan

- 1.1 The Perth and Kinross Community Planning Partnership (CPP) brings together organisations to plan and deliver services for the people of Perth and Kinross. Together the CPP has developed the Perth and Kinross Community Plan which outlines the key things we think are important for Perth and Kinross.
- i) Giving every child the best start in life
  - ii) Developing educated, responsible and informed citizens
  - iii) Promoting a prosperous, inclusive and sustainable economy
  - iv) Supporting people to lead independent, healthy and active lives
  - v) Creating a safe and sustainable place for future generations
- 1.2 It is considered that the actions contained within this report contribute to all of the above objectives.

## Corporate Plan

- 1.3 The Council's Corporate Plan 2013-2018 outlines the same five objectives as those detailed above in the Community Plan. These objectives provide a clear strategic direction, inform decisions at a corporate and service level and shape resource allocation. It is considered that the actions contained in the report contribute to the objectives as outlined in paragraph 1.2 above. These objectives are met by implementing schemes which promote road safety.

## **2. Resource Implications**

### Financial

- 2.1 The impact of the proposed changes to 2016/17 charges have been incorporated into the Service's 2016/17 Revenue Budget for approval at Full Council on 11 February 2016.

## **3. Assessments**

### Equality Impact Assessment

- 3.1 Under the Equality Act 2010, the Council is required to eliminate discrimination, advance equality of opportunity, and foster good relations between equality groups. Carrying out Equality Impact Assessments for plans and policies allows the Council to demonstrate that it is meeting these duties. The Equality Impact Assessment undertaken in relation to this report can be viewed clicking [here](#), or a copy can be provided on request.
- 3.2 This section should reflect that the proposals have been considered under the Corporate Equalities Impact Assessment process (EqIA) with the following outcome:
  - (i) Assessed as **not relevant** for the purposes of EqIA

### Strategic Environmental Assessment

- 3.3 Strategic Environmental Assessment (SEA) is a legal requirement under the Environmental Assessment (Scotland) Act 2005 that applies to all qualifying plans, programmes and strategies, including policies (PPS). The proposals have been considered under the Act and no further action is required as it does not qualify as a PPS as defined by the Act and is therefore exempt.

### Sustainability

- 3.4 Under the provisions of the Local Government in Scotland Act 2003 the Council has to discharge its duties in a way which contributes to the achievement of sustainable development. In terms of the Climate Change Act, the Council has a general duty to demonstrate its commitment to sustainability and the community, environmental and economic impacts of its actions.

#### **4. Consultation**

##### Internal

- 4.1 TES Service Managers with responsibility for the charges detailed in Appendix 1 have been consulted in the preparation of this report.

#### **2. BACKGROUND PAPERS**

- 2.1 No background papers, as defined by Section 50D of the Local Government (Scotland) Act 1973 (other than any containing confidential or exempt information) were relied on to any material extent in preparing the above report.

#### **3. APPENDICES**

- 3.1 Appendix 1 – TES Scheme of Charges 2016/17.

General Waste Skip Hire Services are available, but only when used in conjunction with the Skips for Recyclable and Compostable Waste.										
As a minimum, Perth and Kinross Council request that Businesses/Households achieve a recycling/composting rate of 70%, with only 30% accepted as Residual Waste, as part of this service.
